

**Sheep & Goat Health
Committee Report**

2006 Mid-Year Report

August 24, 2006

Chair: Dr. Lyndon Irwin

Vice Chair: Dr. Cleon Kimberling

Cleon Kimberling and Lyndon Irwin have visited about the March meeting and have come up with some ideas for speakers for the sheep and goat group meeting. We do not have any sheep or goat disease issues that need discussion at the meeting on August 24th. Both the sheep and goat working groups reported in Kansas City and positions of both industries were made clear.
