Electronic CVIs Conclusion

A State Animal Health Official Perspective

Dr. Keith Roehr, State Veterinarian
Colorado Department of Agriculture
Health Certificates - Past

- Slow
- Tedious
- Paper intensive
Health Certificates - Now

- Fast, more efficient and “paper light”
ECVI Benefits

• Real time information
• Easier upload into animal traceability software systems
• Legible Certificates
• Complete Certificates
• Public expects electronic systems
Comporting with the Animal Disease Traceability Rule

- Age requirement vs. potential use
- States rules are sometimes more stringent
ECVI Challenges/Opportunities

- Any barriers to the transfer of data from the ECVI into state software systems is an impediment to ADT
  - Varied eCVIs to varied state software systems, how well will data transfer?
  - Fees from companies that host eCVIs
ECVI Challenges/Opportunities

• Training of veterinarians and livestock producers

• Livestock Auction Market implementation

**VETERINARY CERTIFICATION:**

"I certify, as an accredited veterinarian, that the above described cattle were inspected by me and that they are not showing signs of tuberculosis, contagious or communicable diseases, except as listed.

All registered cattle must be identified and tested. The results and results of tests are to be indicated on this certificate.

To the best of my knowledge, the cattle named in this certificate meet the state of birth and previous identification requirements. I further certify that I have signed this certificate.

Electronic CVIs; Conclusions

A State Animal Health Official Perspective

- It’s time to move forward
- The real goal is improved disease response
- The need is a collaborative effort; industry, state and federal

What do you think?
