## Interstate Animal Movement Requirements Made Easy!

If you are involved with transport and movement of livestock, this resource is for you! NIAA and USAHA collaborated to create this user-friendly website offering state-by-state requirements for livestock transport. Site users are saying, "so easy to use!", "the menu-driven format is much appreciated," and "this site takes a topic that is hard to understand and makes answers easy to find."

Special thanks to Equity Cooperative Livestock, Livestock Marketing Association and Mobile ID For Livestock as our foundation partners, state animal health officials, and industry supporters across the country for making this great resource available.

Check out [InterstateLivestock.com](http://InterstateLivestock.com) today and share this great resource with other industry professionals!

The screenshot shows a web browser window displaying the InterstateLivestock.com homepage. The page features the site's logo and navigation links for NIAA and USAHA. A prominent heading reads "Interstate Animal Movement Requirements" with the tagline "Quick, accurate access to state import requirements for livestock." Below this is a search bar with a "FIND TAGGING SITE" button. To the right, a "FIND REQUIREMENTS..." section provides instructions and a form with dropdown menus for "FROM" (Select Origin), "TO" (Select Destination), and "SPECIES" (Select Species), along with a "FIND" button. At the bottom, three partner logos are displayed: Equity Cooperative Livestock Sales, LMAweb.com (Livestock Marketing Association), and Mobile ID For Livestock. The page is powered by Tracefirst.
